

## What is NeoFlexcin?

**NeoFlexcin** is an all natural, antibacterial, antiviral and antifungal topical pain reliever that literally helps your body repair itself. The unique formula not only relieves pain upon application, but it continues to penetrate deeply through the layers of your skin to provide your body with enzymes, essential fatty acids and vitamins to promote rebuilding and repair of cells right at the site of the pain.

## SATISFACTION GUARANTEE:

If you are not completely satisfied with **NeoFlexcin** after 21 days, return the unused portion of the bottle for a full refund.

*See website for details.*

## What are people saying about NeoFlexcin?

I started using **NeoFlexcin** and the pain has diminished greatly... without taking pills!

- **Stan T., Utah**

I've suffered from hyperkeratosis (cradle cap) for well over 40 years. I've finally found a product that keeps it well under control and has a nice fresh, feeling. This is the only product that I've found to keep it under control.

- **James Pitzer, Morehead City, NC**

Having suffered from pregnancy induced carpal tunnel, **NeoFlexcin** was one of the few things I could use for pain. Coupled with a wrist splint, it worked like a dream. The splint kept the fluid retention down and **NeoFlexcin** relieved the pain in my fingers and wrist. I highly recommend this cream to anyone with joint pain.

- **A. Everett, Lakeland, FL**

I originally got **NeoFlexcin** to use on my feet. I am constantly running around for 9 hours at a time. It feels great! The BEST part was the unexpected bonus my hands got. They were less wrinkled and smoother and it was very noticeable. I wish I had taken some before and after photos.

- **Megan H, Jacksonville, NC**

## What's the Science behind NeoFlexcin?

**NeoFlexcin's** totally unique "Nutrea-Sphere" technology integrates natural health-building active agents and proprietary "enzyme keys" to insure predictable positive results.

**NeoFlexcin** is much more than a great pain reliever. It bathes the stressed or damaged areas of your body in rich health-building nutrients. **NeoFlexcin** is designed to provide bio-available nutritional supplements for the body to rebuild healthy tissue through it's special transdermal delivery system. *You apply **NeoFlexcin** at the site of pain and you'll feel immediate relief, but **NeoFlexcin** keeps working even after the pain is gone to help your body rebuild and strengthen at the cellular level.* **NeoFlexcin** also contains natural skin conditioning agents for healthy, revitalized skin.

**NeoFlexcin** uses a unique combination of ingredients including Arnica, Omega 3 & 6 Fatty Acids and proprietary enzymes. This matrix of all natural ingredients builds long term wellness and offers the added benefit of anti-aging skin conditioning.
